

# OLIBÒ

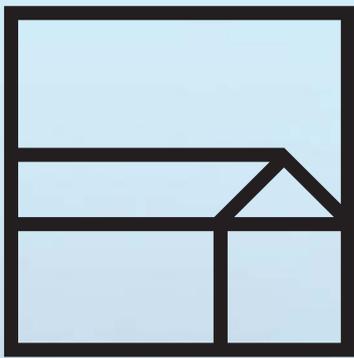

può un  
cuscino  
salvare  
l'oceano?  
can a  
cushion  
save the  
ocean?  
yes!

save the ocean

seafantasy

Quando l'innovazione incontra lo stile e la sostenibilità; questo è il progetto #ECOLibò che utilizza un tessuto di cotone rinforzato da fibre tessili di poliestere ad alta efficienza ricavate da bottiglie in PET recuperate dagli oceani.

Le fibre sono assolutamente atossiche e ipoallergeniche, ottenute con processi innovativi non inquinanti certificati. Ogni metro quadro di tessuto contiene l'equivalente di 5 bottiglie, un contributo notevole al circolo del riciclo! Oltre a proteggere i nostri mari, questa collezione contiene anche tutto il design, la manifattura e la bellezza di Olibò. #ECOLibò, una piccola/grande rivoluzione nell'homedecor.

When innovation meets style and sustainability; this is the #ECOLibò project, textile products made of natural cotton fabric reinforced by high efficiency polyester textile fibers derived from PET bottles picked up from the oceans.

This fibers are non-toxic and hypoallergenic, obtained through certified processes, absolutely innovative and non-polluting. Each square meter of fabric contains the equivalent of 5 bottles, an impressive contribution to the recycling circle! In addition to protecting our seas, this collection carries all the design, the manufacturing and the beauty of Olibò. #ECOLibò, a small and at the same time a great revolution in the home decor sector.
